Lydia E. Pinkham's Vegetable Compound A Woman's Remedy For Woman's Ills.

Suggestions by Dr. Hartman.-How to Combat the Nervous Depression Incident to Warm Weather.

Nervousness is very common among women. This condition is due to anemic nerve centers. The nerve centers are the reservoir for nerve vitality. These centers become bloodless for the want of proper nutrition.

This condition is especially noticeable during the warm season. Every summer an army of invalids are produced as

a direct result of weak nervous systems. This could easily be overcome by the use of Peruna. Peruna strikes at the root of the trouble by correcting the digestion. Perfect digestion furnishes increased nutrition for the nerve centers. Perfectly digested food gives these reservoirs of life a vitality which creates strong, steady nerves, and in this manner fortifies and nourishes life.

Miss Blanche Grey, a prominent young society woman of Memphis, Tenn., in a nervous force is often taxed to the utmost from lack of rest and irregular meals, I know of nothing which is of so much benefit as Peruna. I took it a few months ago when I felt my strength giving way, and it soon made itself manifest in giving me new strength and health."—Miss Blanche Grey.

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquirduce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be pos-sible if Peruna contained any drugs of a narcotic nature.

At this season of the year we are peculiarly liable to inflammations of the stomach and bowels. It is the part of wisdom to learn how to cut them short and in the easist and quickest manner. Peruna does this by its peculiar power over all forms of catarrhal troubles.

The Texas damage suit industry, to which attention has been called in the press of the state, continues to flourish. On May 11, in the city of Houston, the "damage suiters" became unusually busy, and in one afternoon filed suits for alleged damages in sums aggregating \$86,995. The railroads suffered most from this on-slaught, but both the Western Union Telegraph Company and a local corporation were included in the list of defendants. There are doubtless just claims of this character, but it is unreasonable to suppose that the great majority of them have cause for existence other than the desire to get something for nothing. Men who revel in the role of plaintiff in personal injury sults, and lawyers who work up cases of this kind, are said to play on the credulity of the public, and the railroads suffer because of it. When a transportation company or any other corporation is negligent under the law it should be made to stand the conse quences. But those who perpetrate fraud in the prosecution of these claims, and men who get hurt be cause they may improve their bank accounts, as men have done, should be treated as other imposters usually There may be a better remedy for are. The figures showing the amount rns, sprains, etc., than Hunt's paid out yearly by Texas railroads in Lightning Oil, but it so, I have failed settlement of personal injury claims would indicate the presence of imposters in force. There never was a railroad that did not help materially to build up and improve the territory along its line. Unscrupulous men who defraud them should receive the same consideration given to those who deindividuals. - Dallas Beau fraud
